Purchase of rugby boots and Gum shields

If you intend to purchase new rugby boots for the coming season we would ask that you check the type of studs on the boots. Unfortunately, sometimes we see slice / cut injuries to other players from boots that have blades so we are asking that you do not purchase these types of boots. Please consider the traditional metal round stud (not plastic) as the boot / stud of choice shown below. There are a selection of rugby boots in the shop for purchase at €10 a pair.

We recommend the use of a mouth guard at all times for training and matches. Mouth guards can be custom made through your dentist or specialist companies or you can purchase a mouth guard in a local sports shop. We also offer mouth guards for sale in the club shop.
